

Wasteland Warfare

Full Card List – July 2019 Onwards v1

When initially released, every starter box and expansion contained cards. From July 2019, products containing models no longer come with cards and, instead, all cards for each wave of releases are available as a separate deck covering all the models in that wave plus more.

(The cards that accompanied the separate expansions pre-July 2019 are listed in a separate document.)
