

## **Wasteland Warfare**

### **Full Card List – Pre-July 2019 v6**

When initially released, every starter box and expansion contained cards. From July 2019, products containing models no longer come with cards and, instead, all cards for each wave of releases are available as a separate deck covering all the models in that wave plus more. This document lists the cards that were contained in each of the products prior to July 2019. (The cards from July 2019 onwards are listed in a separate document.)
